

Madonna Catholic Regional School Phased School Reopening Health and Safety Plan

****Updated 8-26-2020**

It is the Mission of Madonna Catholic Regional School to provide a Christ-centered community focused on Gospel values, service, and academic excellence to foster a lifelong relationship with God and the Church and to develop leaders that carry their success with kindness, respect, responsibility and compassion.

Guided by our school community's input, this document will ensure a fluid design, offering flexibility for our families. We continue to follow the guidelines from the Governor's office, Pennsylvania Department of Education, Diocese of Pittsburgh, the American Academy of Pediatrics, and the Pennsylvania and Allegheny Departments of Health. We understand that everyone has different comfort levels and we will do our best to meet every child's needs. Our virtual learning option will be offered. Classes will be synchronous, so that students from home can see the class as it is being instructed in real time.

Please do not hesitate to contact our administration with any questions or concerns. We are committed to our families returning to school, whether in the traditional classroom or joining in from home.

Preamble: Caring for Body and Soul

Jesus Christ – The Divine Physician

“As (Jesus) went ashore, He saw a great throng; and he had compassion on them, and healed their sick” (Mt 14:14).

The first line of St. John Paul II’s first encyclical letter *Redemptor Hominis* proclaimed this: *“The Redeemer of Man, Jesus Christ, is the center of the universe and history.”* It is a very apt reminder for us today that Jesus Christ stands at the center of all human life and each of our lives, especially when great trials and difficulties confront us. Over these past months, as the COVID-19 pandemic changed the way people throughout the world live their lives, the Lord Jesus has stood at the center of our existence. He continues to walk with us each day. Christ is the Redeemer and the Divine Physician who heals, guides and protects us and all whom we love. He is the answer to the deepest longings of the human heart and sheds the light of his love onto the darkness of our fears. He is hope and healing for the world.

One of our most pressing concerns is the education and the formation in the Catholic faith of our children and young people. No matter what questions and challenges may arise as we seek to open our Catholic schools, religious education and youth ministry programs, we believe that Jesus, our Redeemer and Divine Physician, is at the center of our endeavors. He who gazed with compassion upon the people gathered on the seashore two thousand years ago looks upon us with love and by his presence heals, strengthens, enlightens us and gives us hope to go on.

The Family – Basic Cell of the Body of Christ

In a public health crisis such as we are experiencing, much attention is necessarily and rightfully given to *the body*. This is the chief purpose of this document: to protect the bodily health of our students, families, staff and volunteers. But as a community of believers, we do well to reflect on our Church’s spiritual understanding of itself as *One Body in Christ* (1 Corinthians 12: 12-27). We are the Body of Christ: many individuals united as members of this Body, in and through our relationship with Jesus, our Head. Mindful of our identity as members of the Body of Christ, we recall that the ministry of Jesus Christ in which the Church participates is care for the “whole person”. That is to say, we are not only concerned with the physical good of individuals, but also their spiritual, emotional, social and intellectual well-being. This preamble is a reflection on those aspects of care which might otherwise be forgotten in our anxiety to respond to our present crisis. Highlighting these broader aspects of care for Christ’s Body, we first reflect on the primary element of any body, the cell.

The Church teaches that in both society and the Church, the family is the basic cell or most fundamental unit (CCC, 1656, 2207). “The family is the original cell of social life” (CCC, 2207). The home is the first school of love, compassion, truth and faith. Therefore, the stronger the family is,

the stronger all of society and the Church will be. “Authority, stability, and a life of relations within the family constitute the foundations for freedom, security and fraternity within society...The family, (then), must be helped and defended by the appropriate measures” (2207). In this hour of need, the Lord uses our schools and parishes to help and defend our families. We take to heart the need to keep the “family first”, to strengthen, support and engage the many families that are the foundation of our communities.

Dignity of the Human Person

Beginning in childhood, we experience that great truth which our faith teaches: that every human person is created in the image and likeness of God. The unconditional love which parents have for their children is a beautiful and powerful witness that the Lord created us out of love, to be loved, to give love, for love. This is the foundation of the “dignity of human person” which the Church proclaims and expresses in our care for our neighbors, especially the most vulnerable, those who are underrepresented and the marginalized.

Our personal freedom is also an outward manifestation of the divine image we bear. We often struggle in our proper understanding and experience of this freedom. Through Christ God gives us freedom, not as the license to do whatever we want, but as the ability to do what we ought. We receive this as Jesus’ own example, who “did not come to be served but to serve and to give his life as a ransom for many” (Matt 20:28).

We are faithful to our own personal dignity when we choose to do the good for which we are created; and we show reverence for the dignity of others in caring for their spiritual and physical needs. “The more one does what is good, the freer one becomes. There is no true freedom except in the service of what is good and just,” (CCC, 1733).

This understanding of our personal freedom, and the presence in every age and place of those experiencing poverty, sickness and need, has moved Christian women and men to respond in love to our neighbors in ways that are both simple and heroic. In a very particular way, the Church’s mission to preach the Gospel is found in its ministry to those suffering with physical illnesses, as it seeks to accompany them and work toward their health in body and soul. Therefore, as we respond to the COVID-19 crisis, let us each strive to respect the dignity of each person in our community, seeking their *total* care.

✓ Physical Care

“Do you not know that your body is a temple of the Holy Spirit within you, whom you have from God, and that you are not your own? For you have been purchased at a price. Therefore, glorify God in your body” (1 Cor 6:19-20). Have we ever thought of the body as a traveling “tabernacle”, God’s dwelling place which brings His presence to others? Yet as God chooses to live in us, this is what we are. Our physical selves, therefore, are not only integral to our personhood, but are ennobled by the Holy Trinity who lives within us by grace.

We cannot understand ourselves apart from our physical bodies, nor can we accomplish good without them. That is why the Lord expects us to be good stewards of the bodies He has created. Taking care of our physical health allows us to fully offer ourselves in service to the Gospel of Jesus Christ. St. Ignatius of Loyola taught, "It is not the soul alone that should be healthy; if the mind is healthy in a healthy body, all will be healthy and much better prepared to give God greater service."

✓ **Spiritual Care**

Our care for the spiritual health of every person is a genuine expression of our hope for eternal life. Together with the call to serve the physical needs of our neighbors which we recall especially with the *Corporal Works of Mercy*, (feed the body, shelter the homeless, care for the imprisoned, etc.), our Church has long maintained the teaching and tradition of the *Spiritual Works of Mercy*: counsel the doubtful, instruct the ignorant, admonish sinners, comfort the sorrowful, forgive Injuries, bear wrongs patiently, pray for living and the dead.

Our lives in this world, and especially in the midst of a pandemic, present us with an abundance of opportunities to serve others with the love of Christ. In the first place we do this in our care for the sick and those prone to physical illness, but also in our care for those suffering fear and anxiety and in our accompaniment of those who are discouraged or who may not know Jesus as our Redeemer and Diving Physician. The most excellent and effective "medicine" which Christians have available are the sacraments of the Church. In the sacraments each of us, again and again, is drawn into an encounter with the Lord Jesus, who heals us and makes us whole. The Holy Eucharist, in particular, is our "daily Bread" given to nourish in us the hope which Christ alone offers us.

✓ **Social and Emotional Care**

As already recalled, we are created by and exist through the love of a Trinitarian God. Imaging this original Community of Love, human persons are impelled to pursue a civilization of love among peoples. Inter-connectedness is not only a call, then, but also a personal need. Yet, facing social distancing, we experience certain restrictions to our interactions. Even still, we are never hindered in building and sustaining friendships and healthy relationships. Fostering self-awareness, impulse control, motivation, empathy, and social skills, help us to relate to others and to know ourselves. Through our closeness with God, our lives spill over with the Fruits His Spirit – love, joy, peace, patience, kindness, goodness, faithfulness, goodness and self-control -- which cultivate an emotional and social well-being built upon the love that is our God.

✓ **Intellectual Care**

Even in the midst of the COVID uncertainty, our schools and parishes are committed to serving the instructional needs of our students. This is modeled by the Second Vatican Council which insisted that "*Holy Mother Church must be concerned with the whole of man's life, even the secular part of it insofar as it has a bearing on his heavenly calling. Therefore, she has a role in the progress and development of education*" (*Gravissimum Educationis*). Education remains critically important in the formation of the human person by teaching how to live well now to be able to live with God for all eternity. Our schools and parishes serve both the faith community and

society by educating children, young people and adults to contribute to the common good by becoming active and caring members of the communities, cities, and nation in which they live.

Facing many challenges as we reopen schools and provide faith formation and youth ministry in parishes in the fall, we, the Body of Christ, nonetheless take up this charge with faith, hope and love. Commissioned by the Son of God Himself for this holy work, we go forward confident that the One who began the good work in us will bring it to completion (Philippians 1: 6). As we implement the following guidelines to provide our children and young people with an excellent Catholic education and formation in a safe and healthy environment, we turn always to Him in our work and respond with unwavering faith:

“Jesus, we trust in You!”

Health and Safety Plan Governing Body Affirmation Statement	45

This document draws on a resource created by the Council of Chief State School Officers (CCSSO) that is based on official guidance from multiple sources to include: the Centers for Disease Control and Prevention, the White House, American Academy of Pediatrics, Learning Policy Institute, American Enterprise Institute, Rutgers Graduate School of Education, the World Health Organization, the Office of the Prime Minister of Norway as well as the departments of education/health and/or offices of the governor for Idaho, Montana, New York, Texas and Washington, DC.

Health and Safety Plan: Madonna Catholic Regional School

All decision-makers should be mindful that as long as there are cases of COVID-19 in the community, there are no strategies that can completely eliminate transmission risk within a school population. The goal is to keep transmission as low as possible to safely continue school activities. All school activities must be informed by [Governor Wolf's Process to Reopen Pennsylvania](#). The administration has categorized reopening into three broad phases: red, yellow, or green. These designations signal how counties and/or regions may begin easing some restrictions on school, work, congregate settings, and social interactions:

- The Red Phase: Schools remain closed for in-person instruction and all instruction must be provided via remote learning, whether using digital or non-digital platforms. Provisions for student services such as school meal programs should continue. Large gatherings are prohibited.
- The Yellow Phase and Green Phase: Schools may provide in-person instruction after developing a written Health and Safety Plan, to be approved by the local governing body (e.g. board of directors/trustees) and posted on the school entity's publicly available website.

Types of Reopening

Key Questions

- How do you plan to bring students and staff back to physical school buildings, particularly if you still need social distancing in place?
 - Each classroom has been measured to determine the number of students that can be seated while adhering to the six feet social distancing guidelines.
 - Given our current enrollment we will be able to average 12-15 students per class and offer five days a week in school classes. Virtual/distance learning options will also be provided.
- How did you engage stakeholders in the type of re-opening your school entity selected?
 - A diocesan-wide planning team that consisted of local principals and central administration was formed to research best practices and gather research based resources. Local school parents were surveyed to provide us with valuable insight on the perceptions and feelings of our families regarding education during COVID-19. The Recovery plan was then drafted using the best available resources and then vetted through various focus groups composed of local teachers, parents and pastors.
- How will you communicate your plan to your local community?
 - The COVID-19 Educational Recovery Plan will be disseminated to all stakeholder groups (Administrators, Parents, Teachers) via email. The document will be placed on the local schools' websites for public inspection.
- Once you reopen, what will the decision-making process look like to prompt a school closure or other significant modification to operations?
 - Decisions will be made by the pandemic team in coordination with local and state health agencies.

Based on your county's current designation and local community needs, which type of reopening has your school entity selected?

- ✓ **Total reopen for all students and staff (but some students/families opt for distance learning out of safety/health concern).**
- Scaffolded reopening: Some students are engaged in in-person learning, while others are distance learning (i.e., some grade levels in-person, other grade levels remote learning).
- Blended reopening that balances in-person learning and remote learning for all students (i.e., alternating days or weeks).
- Total remote learning for all students. (Plan should reflect future action steps to be implemented and conditions that would prompt the decision as to when schools will re-open for in-person learning).

Anticipated launch date for in-person learning (i.e., start of blended, scaffolded, or total reopening): **Tuesday, September 8, 2020**

If at any time during the school year it is requested that we pivot to a hybrid model, the schedule will be as followed:

	Monday	Tuesday	Wednesday	Thursday	Friday
Students with last name beginning with the following will participate in brick and mortar	A-I	A-I	All students are working from home on this day to complete assignments, while	J-Z	J-Z
Students with last name beginning with the following will participate in virtual learning from home	J-Z	J-Z	CLEANING AND SANITIZING OF BUILDING IS COMPLETED	A-I	A-I

Pandemic Coordinator/Team

Each school entity is required to identify a pandemic coordinator and/or pandemic team with defined roles and responsibilities for health and safety preparedness and response planning during the phased reopening of schools. The pandemic coordinator and team will be responsible for facilitating the local planning process, monitoring implementation of your local Health and Safety Plan, and continued monitoring of local health data to assess implications for school operations and potential adjustments to the Health and Safety Plan throughout the school year. To ensure a comprehensive plan that reflects the considerations and needs of every stakeholder in the local education community, LEAs are encouraged to establish a pandemic team to support the pandemic coordinator. Inclusion of a diverse group of stakeholders is critical to the success of planning and implementation. LEAs are highly encouraged to make extra effort to engage representatives from every stakeholder group (i.e., administrators, teachers, support staff, students, families, community health official or other partners), with a special focus on ensuring that the voices of underrepresented and historically marginalized stakeholder groups are prioritized. In the table below, identify the individual who will serve as the pandemic coordinator and the stakeholder group they represent in the row marked “Pandemic Coordinator”. For each additional pandemic team member, enter the individual’s name, stakeholder group they represent, and the specific role they will play in planning and implementation of your local Health and Safety Plan by entering one of the following under “Pandemic Team Roles and Responsibilities”:

- **Health and Safety Plan Development:** Individual will play a role in drafting the enclosed Health and Safety Plan;
- **Pandemic Crisis Response Team:** Individual will play a role in within-year decision making regarding response efforts in the event of a confirmed positive case or exposure among staff and students; or

- **Both (Plan Development and Response Team):** Individual will play a role in drafting the plan and within-year decision making regarding response efforts in the event of a confirmed positive case.

Individual(s)	Stakeholder Group Represented	Pandemic Team Roles and Responsibilities (Options Above)
Kathry J. Miller	Principal/Pandemic Coordinator	Both
Juliann Romasco	Pastoral Council/Health Coordinator	Both
Stacy Minniti	Lead Teacher	Both
Tracy Grandinette	Administrator-Advancement Team	Both
Jennifer Zdravecky	Parents-Family Association	Both
Karlie DiFonso	Teacher	Both
Mary Alcorn	Teacher	Both
Kristina Hartman	Teacher	Both
Patty Alcorn	Teacher	Both
Julie Hawk	Teacher	Both
Rose Greco	Teacher	Both
Jessica Willis	Teacher	Both
Lisa Agostoni	Cafeteria Manager	Both
Angela Wingo	Cafeteria Assistant	Both
Reverend Kevin Dominik	Parish-Advisory Council	Both
Reverend Patrick Barkey	Pastoral Staff-Advisory Council	Plan Development
Deacon Al Poroda	Pastoral Staff-Advisory Council	Plan Development
Tom Kadlick	Seminarian-Advisory Council	Plan Development
Richard Panteleo	Advisory Board Member	

Key Strategies, Policies, and Procedures

For each requirement within each domain, document the following:

- **Action Steps under Yellow Phase:** Identify the discrete action steps required to prepare for and implement the requirement under the guidelines outlined for counties in yellow. List the discrete action steps for each requirement in sequential order.
- **Action Steps under Green Phase:** Identify the specific adjustments the LEA or school will make to the requirement during the time period the county is designated as green. If implementation of the requirement will be the same regardless of county designation, then type “same as Yellow” in this cell.
- **Lead Individual and Position:** List the person(s) responsible for ensuring the action steps are fully planned and the school system is prepared for effective implementation.
- **Materials, Resources, and/or Supports Needed:** List any materials, resources, or support required to implement the requirement.
- **Professional Development (PD) Required:** In order to implement this requirement effectively, will staff, students, families, or other stakeholders require professional development?

In the following tables, an asterisk (*) denotes a mandatory element of the plan. All other requirements are highly encouraged to the extent possible.

Cleaning, Sanitizing, Disinfecting, and Ventilation

Key Questions

- How will you ensure the building is cleaned and ready to safely welcome staff and students?
 - The school buildings are always cleaned in the summer in preparation for the return to school. At minimum, classrooms, restrooms, cafeteria floors are stripped and waxed, and desks and chairs washed. Cleaning should be done with soap and water, then followed by the application of an EPA-approved disinfectant (see www.epa.gov). Disinfectants differentiate themselves from other cleaning products by killing germs with chemicals rather than removing them. According to the [Centers for Disease Control and Prevention \(CDC\)](https://www.cdc.gov), disinfectants should be used on surfaces that have already been cleaned of dirt and grime—especially high-touch surfaces—to prevent the spread of diseases. Frequently touched surfaces, such as desks, light switches, keyboards, will be cleaned regularly throughout the school day and disinfected after school each day.. Recommended disinfectants, include the following: **Bleach:** [Clorox Disinfecting Bleach](#); **Multipurpose Cleaner:** [Lysol Clean & Fresh Multi-Surface Cleaner](#); **Toilet Cleaner:** [Clorox Toilet Bowl Cleaner with Bleach](#). Classrooms should be cleaned and disinfected, and then closed off to others. Schools should also purchase a recommended spray disinfectant, which can be sprayed with a wand, for in-between disinfecting and quick and easy use on surfaces and floors.
 - School administration will collaborate with St. Andrew the Apostle Parish to consult with local professional cleaning companies for effective cleaning and disinfectant supplies and procedures for their school building. The cleaning company will deep clean and sanitize the school before the start of school as well as maintain the after school cleaning and disinfecting of the classrooms, hallways, bathrooms and stairwells.
 - School administration will collaborate with St. Andrew the Apostle to hire and maintain a maintenance person to routinely clean and disinfect throughout the school day.
- How will you procure adequate disinfection supplies meeting OSHA and [CDC requirements for COVID-19](#)?
 - The schools will purchase products recommended by the CDC and EPA. One avenue of purchase will be to use the School Safety grant through the Intermediate Units; these funds can assist with procuring disinfection supplies, and other costs related to proper cleaning and sanitizing. Schools should procure enough disinfection supplies for student enrollment, staff, and overall size of the school building. Hand sanitizers, disinfectant wipes, etc. should be utilized throughout the school day. Other EPA approved cleaning supplies can be used, one such approved product is BactroKill Plus (made in PA) with an EPA Category IV rating for toxicity. It is on the EPA list and is eco-friendly.

- How often will you implement cleaning, sanitation, disinfecting, and ventilation protocols/procedures to maintain staff and student safety?
 - The initial cleaning will have been done before the students and staff return to school.
 - Once school is in session, staff can conduct the regular cleaning of areas, particularly highly touched surfaces, using a product that is both a cleaner and a disinfectant.
 - During the day, while school is in session, the staff should regularly wipe door knobs, railings, and other frequently touched surfaces with a disinfectant cleaner.
 - Bathrooms should be cleaned and disinfected regularly throughout the school day, such as at every hour. Hand sanitizing pumps will be placed in the entrance way of the school, hallways and each of the classrooms for easy access at all times for everyone.

Current evidence suggests that SARS-CoV-2 may remain viable for hours to days on surfaces made from a variety of materials. Cleaning of visibly dirty surfaces followed by disinfection is a best practice measure for prevention of COVID-19 and other viral respiratory illnesses in households and community settings. The latest information available on how long COVID-19 remains on surfaces should be used to determine the schedule of cleaning. Parents need to be aware of the following.

- The inner layer of a mask for up to four days
 - The outer layer of a mask for up to seven days
-
- Which stakeholders will be trained on cleaning, sanitizing, disinfecting, and ventilation protocols? When and how will the training be provided? How will preparedness to implement as a result of the training be measured?
 - All stakeholders will be trained on appropriate methods to keep surfaces, learning spaces, classrooms, desks, hands, materials, etc. clean. Maintenance staff will be trained on the process to keep restrooms, hallways, staircases, floors, banisters, ventilations systems, classrooms, etc clean and sanitized.
 - Training will be provided during Professional Development sessions in August, and in October, if needed, and throughout the school year, when needed. If possible, training videos such as these from **32BJ** (<https://www.youtube.com/watch?v=tbGvwmeyVO4>) or from **Corovox** (<https://www.youtube.com/watch?v=mCBRKPZWY0g>) or from **Babylon Health** (https://www.youtube.com/results?search_query=handwashing+videos+for+covid) will be used to assist staff with proper cleaning and sanitizing procedures related to student and staff safety during the school day.
 - Cleaning verification forms will be signed off by staff to verify preparedness to implement cleaning protocols during the school day.

Faculty Staff Training Protocol Verification Form for Cleaning/Sanitizing

I, _____ have viewed the suggested videos and understand the proper protocol for cleaning
(Print Legibly)

and sanitizing all areas in which I work and/or oversee. My understanding includes proper procedures for hand washing, cleaning surfaces, cleaning high touch areas, disinfecting and sanitizing all areas in which I come in contact. I also understand how to teach children in my care how to successfully wash their hands to help prevent the spread of viruses, in particular COVID-19.

Signature _____ Date _____

Summary of Responses to Key Questions:

Each school building will be thoroughly cleaned and sanitized during the summer months, and the classrooms will be closed off to others until ready for use. Cleaning and sanitizing materials must be purchased and meet all of the EPA guidelines and must be kept in a secure location away from students. Frequent cleaning and sanitizing will occur throughout the school day, especially any highly touched surfaces, such as doorknobs, light switches, desks, etc. All staff members will be instructed on the proper cleaning methods to be used to keep the building clean and sanitized. Cleaning and sanitizing materials will be provided for each classroom and will be replaced as needed. Hand sanitizing pumps will be placed in the hallways so as to be readily available to everyone.

Requirements	Action Steps under Yellow Phase	Action Steps under Green Phase	Lead Individual and Position	Materials, Resources, and or Supports Needed	PD Required (Y/N)
<p>* Cleaning, sanitizing, disinfecting, and ventilating learning spaces, surfaces, and any other areas used by students (i.e., restrooms, drinking fountains, hallways, and transportation)</p>	<p>All surfaces and floors will be cleaned and disinfected with EPA approved products. Highly touched surfaces, such as doorknobs, light switches, desks, etc. will be sanitized frequently throughout the school day.</p> <p>Hand sanitizer will be available in all classrooms and in hallways, and replaced when needed.</p> <p>Water fountains will be covered and not permitted to be used. Rugs and any fabric surfaces (such as chairs with fabric on them) should be removed, or reduced in number, if possible.</p> <p>When possible, and safe, windows and inside doors will be left open to allow for increased ventilation throughout the school day.</p> <p>Clean bathrooms regularly throughout the school day, such as every hour.</p>	<p>Same as Yellow</p>	<p>Teachers, Principals, and maintenance staff</p>	<p>EPA approved disinfectants for all areas of school building, such as floors, hallways, walls, etc.</p> <p>Large containers of disinfectant wipes for quick and effective sanitization.</p> <p>Spray bottles of EPA approved disinfectant.</p> <p>Hand sanitizer for classrooms and hallways.</p>	<p>Yes, training in cleaning protocols</p>

Social Distancing and Other Safety Protocols

Key Questions

- How will classrooms/learning spaces be organized to mitigate spread?
 - Student desks will be spaced 6 feet apart. Students will be required to wear a face covering at this time.
 - Optional: Student desks will have plastic shields around them which are cleaned daily ([Clear Plastic Study Carrel](#))
 - Dedicated technology devices for each child-Students in K-8 will have a 1:1 Chrome book initiative
 - No shared supplies including classroom books
 - Hand sanitation stations in each room
 - Eliminate assemblies, field trips/recreation activities
 - Assigned seating to help track virus spread if a student/staff tests positive for COVID-19
 - Turn desks to face in the same direction (rather than facing each other), or have students sit on only one side of tables, spaced apart.
 - Optional: One desk shield per classroom for enrichment and reinforcement one-to-one instruction
 - Create distance between children on school buses (i.e., seat children by one child per row, skip rows) when possible
- How will you group students with staff to limit the number of individuals who come into contact with each other throughout the school day?
 - Students will remain in and with their homerooms for all classes as much as possible, including lunch.
 - One-way hallway traffic routes
 - Grades K – 4 teachers will remain with students for the day
 - Shields/Carrel installed on podiums (optional)
 - “Specials” teachers will push into the classroom for class.
 - Prohibit physical contact such as handshakes, fist-bumps, high-fives, etc. This will be reinforced throughout the school day to become part of the classroom routine.
 - We want to educate, and take different approaches to educating our students, practice routines, and incentivize compliance. Reward cooperation and good behavior
- What policies and procedures will govern use of other communal spaces within the school building?
 - Utilize cafeteria and/or other large group areas
 - Utilize churches if necessary and/or possible
 - Provide physical guides, such as tape on floors or sidewalks and signs on walls, to ensure that staff and children remain at least six feet apart in lines and at other times (i.e., guides for creating “one-way routes” in hallways)
 - Close communal use shared spaces and/or stagger use and clean and disinfect between use.
 - Outdoor classroom encouraged as much as possible

- How will you utilize outdoor space to help meet social distancing needs?
 - Physical Education classes will be held outdoors weather permitting
 - Outdoor recess at least once a day for the youngest students (K-4)
 - Outdoor recess at least once a day for the oldest students (5 – 8)
 - Outdoor lecture classes for the older students whenever possible (4 – 8)
 - Assigned times and areas for each class to ensure social distancing.
 - Organized activities, assigned areas and materials will ensure the least amount of shared equipment/supplies and space.

- What hygiene routines will be implemented throughout the school day?
 - Temperatures may be taken as students and staff enter the building
 - Regular cleaning of restrooms
 - Students will bring their own water bottle to school. Water fountains will not be in use. Touchless refilling stations have been installed and will be utilized to refill water bottles.
 - Open windows when weather permits
 - Utilize visual cues (floor markings)
 - Create transition schedules that minimize numbers in common spaces; hallways, stairwells and restrooms
 - Frequently clean surfaces, especially stair handrails, door handles, counters, desks, tables, chairs, bathrooms, computers, books, etc.

- How will you adjust student transportation to meet social distancing requirements? (This will depend on the local school district in which the student resides)
 - Page 18 *Reopening PA Schools* - Respondents offered various strategies that school districts should consider in addition to physical distancing to reduce transmission on buses. These include the following:
 - Requiring students, drivers, and aides to wear masks on buses, even if they are not required during the rest of the school day (this assumption was made in conjunction with the agent-based modeling discussed in Section 3 of this memo)
 - Installing a transparent, flexible divider between the bus driver and students so the bus drivers do not have to wear masks that would impact their ability to safely operate the vehicle
 - Increasing ventilation by opening windows whenever possible to reduce aerosol transmission
 - Adopting strategic student placement to coordinate pick up and drop off locations to minimize unnecessary contact with other students, including assigning students' seating with those first on in the back of the vehicle and last on at the front of the bus and vice versa on the return trip.
 - Staggering school bus schedules to allow fewer students on a bus at a time
 - Assigned seating for riders and the possibility of needing more buses.
 - Stagger arrival and drop-off times or locations by cohort or put into place other protocols, to limit contact between cohorts and direct contact with parents as much as possible.

- What visitor and volunteer policies will you implement to mitigate spread?
 - Limit volunteers (At this time we will not be utilizing volunteers in our building)
 - Entrance only permitted if temperature is under 100 F (All non staff members and non students will be limited to main entrance(s) area of building)
 - Require face coverings

- Will any of these social distancing and other safety protocols differ based on age and/or grade ranges?
 - Students will remain in and with their homerooms for all classes, including lunch as much as possible.
 - In grades K – 4 Teachers will remain with students for the day
 - Grade 5-8 Teachers will push into classrooms (Ability grouped classes will change with the least amount of student movement))
 - “Specials” teachers will push into the classroom for class

- Which stakeholders will be trained on social distancing and other safety protocols?
 - All staff, faculty and parish administration

- When and how will the training be provided?
 - Training will be provided by: School District Nurse, IU Staff Members, and the COVID Team. The training will begin for all staff and faculty two weeks prior to the beginning of the school year.

- How will preparedness to implement as a result of the training be measured?
 - CDC guidelines
 - State and Local Health Departments

Summary of Responses to Key Questions:

Each building will be required to have Social Distancing and Safety protocols in place during the school year. Administration will develop a plan based on CDC Guidelines that will require limiting volunteers within the building, changing schedules to limit the amount of places traveled and using a variety of ways to display proper hygiene and social distancing requirements.

Requirements	Action Steps under Yellow Phase	Action Steps under Green Phase	Lead Individual and Position	Materials, Resources, and or Supports Needed	PD Required (Y/N)
--------------	---------------------------------	--------------------------------	------------------------------	--	-------------------

<p>* Classroom/ learning space occupancy that allows for 6 feet of separation among students and staff throughout the day, to the maximum extent feasible</p>	<ol style="list-style-type: none"> 1. When appropriate, in the yellow phase, schools will be utilizing a hybrid-model to limit the number of students in the building and classrooms. 2. Essential employees only will be in the building. 3. All monitoring of student and staff Action Steps outlined in the green phase will be in place in the yellow phase. 	<ol style="list-style-type: none"> 1. Student desks will be spaced 6 feet apart (dependant upon current guidelines) with plastic carels around them which are cleaned daily. Plastic carrel optional. 2. Teachers will push into the classrooms to teach different subjects, instead of the students. 3. Move any non-essential furniture, materials of equipment that is not needed and store them in a place outside of the room 4. Desks should all face in the same direction. 5. It is recommended that teachers use face shields, so students can see their lips as they are proving direction and instruction. 6. Each student is encouraged to provide their own supplies to reduce the need to share supplies. 	<p>Teacher</p>	<ol style="list-style-type: none"> 1. Plastic shields (optional) 2. Classroom relocation if necessary 	<p>N</p>
<p>* Restricting the use of cafeterias and other congregate settings, and serving meals in alternate settings such as classrooms</p>		<ol style="list-style-type: none"> 1. Students will have lunch served in their classroom. 2. pre-trayed lunches will replace the cafeteria line. 	<p>Cafeteria Manager, Volunteers, Teachers</p>		<p>N</p>
<p>* Hygiene practices for students and staff including the manner and frequency of hand-washing and other best practices</p>		<ol style="list-style-type: none"> 1. Training will be provided by a School District Nurse or Local Pandemic Team and begin for all staff and faculty 2 weeks prior to the beginning of the school year. 2. Hand sanitation stations in each room. 	<p>Teachers, Teacher aides</p>	<ol style="list-style-type: none"> 1. Sanitation stations 2. Public school nurse 	<p>Y</p>
<p>* Posting signs, in highly visible locations, that</p>		<ol style="list-style-type: none"> 1. Decals and floor visuals indicating six foot distancing will be included 	<p>Principal Faculty Staff</p>	<ol style="list-style-type: none"> 1. Floor decals/tape 	<p>N</p>

<p>promote everyday protective measures, and how to stop the spread of germs</p>		<p>in classrooms, hallways and communal spaces.</p> <ol style="list-style-type: none"> 2. One-way traffic patterns for hallways, staircase. 3. Decals will be displayed in bathrooms on appropriate hand washing. 			
<p>* Identifying and restricting non-essential visitors and volunteers</p>		<ol style="list-style-type: none"> 1. Limit or restrict volunteers. 2. All visitors to the building will have their temperature taken upon entry. Entrance only permitted if temperature is under 100 F. 3. Only visitors who need to drop off or pick up students or their belongings will be admitted to the entrance of the building. 	<p>Office Staff</p>	<ol style="list-style-type: none"> 1. Other social distancing and safety practices		<ol style="list-style-type: none"> 1. No assemblies or large gatherings of students. (Virtual assemblies and field trips will be held instead). 2. Face coverings for all faculty and staff. 	Administration		N

Monitoring Student and Staff Health

Key Questions

- How will you monitor students, staff, and others who interact with each other to ensure they are healthy and not exhibiting signs of illness?
 - Upon entering the building, the temperature of the students may be taken.
 - Daily, staff may be asked to take their temperature and complete a monitoring form that asks if they are experiencing any signs of illness or shortness of breath/difficulty breathing.
 - Volunteers and family members may be required to have their temperature taken and complete the monitoring form that asks if they are experiencing any signs of illness or shortness of breath/difficulty breathing.

- Where, to whom, when, and how frequently will the monitoring take place (e.g. parent or child report from home or upon arrival to school)?
 - Monitoring of students may take place daily prior to entrance to the building.
 - Student temperatures may be taken as they enter the building.
 - Any student who is exhibiting signs of illness will be sent to the designated area where the parent/guardian will be contacted by the office staff.
 - Signs of illness:
 - Temperature equal or greater than 100 F
 - Cough
 - Shortness of breath
 - Difficulty breathing
 - Or- (2 or more of the following symptoms)
 - Lack of smell or taste (without congestion)
 - Sore throat
 - Chills
 - Muscle Pain
 - Headache
 - Congestion or Runny nose
 - Nausea or vomiting
 - Diarrhea
 - Monitoring of staff will take place daily.
 - Staff will self-monitor using the thermometer provided.
 - Principal and/or office staff will review the monitoring form to assess the health of the staff.
 - In the event that a staff member is deemed ill, a substitute will be called to replace them.
 - Monitoring of Volunteers and others will take place as needed/as they enter the building.
 - Office staff and/or the Principal will review the monitoring sign-in form to assess the health of each volunteer.

- What is the policy for quarantine or isolation if a staff, student, or other member of the school community becomes ill or has been exposed to an individual confirmed positive for COVID-19?
 - If a staff or student becomes ill during the school day with COVID-19: (Note: flu season and allergy season will produce false positives in viewing symptoms. If a student or staff member has a fever they should immediately be sent home contingent on being fever free for 72 hours they should receive distant learning until they are not feverish.)
 - They will be immediately isolated from other students in a designated area, while awaiting transport.
 - Wait up to 24 hours or as long as possible before you clean or disinfect to allow respiratory droplets to settle before cleaning and disinfecting;
 - The workspace of the sick individual will be closed off and then thoroughly cleaned and disinfected;
 - Thoroughly clean and disinfect all areas that the sick person may have used such as offices, bathrooms, and common areas;
 - Open outside doors and windows to increase air circulation in the areas where the infected individual was;
 - Completely clean and disinfect all surfaces in the isolation area after the sick student/staff member has left;
 - Individuals that have had close contact (<6 feet away for >15 minutes without wearing a mask) with the staff/student that has become ill may be asked to stay home and self-monitor for symptoms.
 - Accommodations need to be made for the student's siblings. Options will be available for remote learning if quarantined
 - Other students and staff who have not had close contact will be monitored for signs of illness and/or asked to wear a face covering.
 - In accordance with state and local laws and regulations, school administrators should notify [local health officials](#), staff, and families immediately of any case of COVID-19 while maintaining confidentiality in accordance with the [Americans with Disabilities Act \(ADA\)](#)
 - If a member of the school community becomes ill with COVID-19:
 - Through regular communication, make sure that staff and families know that they (staff) or their children (families) should not come to school, and that they should notify school officials (e.g., the designated COVID-19 point of contact) if they (staff) or their child (families) become sick with COVID-19 symptoms, test positive for COVID-19, or have been exposed to someone with COVID-19 symptoms or a confirmed or suspected case.
 - Individuals that have had close contact with the community member that has become ill may be asked to stay home and self-monitor for symptoms.
 - All surfaces and areas that the individual who may have been exposed to the illness may have come into contact with should be completely cleaned and disinfected;
- Which staff will be responsible for making decisions regarding quarantine or isolation requirements of staff or students?
 - The Principal and/or Administrator will be responsible for making decisions regarding quarantine or isolation requirements of staff or students.

- What conditions will a staff or student confirm to have COVID-19 need to meet to safely return to school?
 - Anyone who has tested positive for COVID-19 must follow quarantine protocols.
- How will you accommodate staff who are unable or uncomfortable to return?
 - If a staff member is symptomatic, they will need to have resolution of symptoms for 3 days AND at least 10 days have passed since the first symptom.
 - If a staff member is asymptomatic, then at least 10 days from date of positive test, presuming they have not developed symptoms within that time frame (CDC)
 - A substitute teacher will be provided to cover the classes for teachers not able to be in the school building due to sickness.
 - Accommodations will be made to create an environment in which the teacher feels as comfortable as possible, however, they may request an unpaid personal leave.
- How will you determine which students are willing/able to return? How will you accommodate students who are unable or uncomfortable to return?
 - The school will follow state & local guidance in determining when a student or staff member may return to school after a potential exposure to an active COVID-19 infection. Students will be allowed to return to school after the prescribed self-quarantine time period. If the student does not wish to return because they are unable or uncomfortable to return, they may continue to participate in the classroom instruction virtually through Google Meet.
- When and how will families be notified of confirmed staff or student illness or exposure and resulting changes to the local Health and Safety Plan?
 - The families will be notified through the parent alert system on the same day that the school is alerted of a positive COVID-19 case. During that time, they will be notified if there are needed changes to current school operational protocol.
- Which stakeholders will be trained on protocols for monitoring student and staff health?
 - All Faculty and staff members will be trained on how to Check for Signs and Symptoms of COVID-19 and what the proper procedure is once someone has been identified.
 - All Family members will be provided with information on how to Check for Signs and Symptoms of COVID-19 ([CDC](#), [PDE](#))
- When and how will the training be provided?
 - Training for the Faculty and staff will be conducted online and In person August 2020.
 - School families will receive educational materials (Flyers, videos, letters and memos) in the following safety actions: Enhanced sanitation practices, Physical distancing guidelines and their importance, Use of face coverings, Screening practices, COVID-19 specific symptom identification ([CA guidance](#), [CDC](#), [PDE](#))
- How will preparedness to implement as a result of the training be measured?
 - All faculty and staff will be required to pass a minimum competency test (google form) that will check for understanding on proper school procedures at the conclusion of the training.

Summary of Responses to Key Questions:

All Family members will be provided with information on how to Check for Signs and Symptoms of COVID-19. Through regular communications staff and families will know that they (staff) or their children (families) should not come to school if they are ill or exhibiting any signs of COVID-19, and that they should notify school officials. Everyone entering the school building will be monitored. Temperature scans and a general health survey may be completed and anyone experiencing any signs of illness or shortness of breath/difficulty breathing will be isolated and sent home. All Faculty and staff members will be trained on how to Check for Signs and Symptoms of COVID-19 and what the proper procedure is once someone has been identified. Anyone who has tested positive for COVID-19 must follow quarantine protocols. If the student does not wish to return because they are unable or uncomfortable to return, they may continue to participate in the classroom instruction virtually.

The families will be notified through the parent alert system on the same day that the school is alerted of a positive COVID-19 case. During that time, they will be notified if there are needed changes to current school operational protocol.

#8 – Secondary Contact of COVID-19 <u>without</u> Symptoms	Yes	14 days after the date of last exposure to the person with COVID-19 <ul style="list-style-type: none"> <input type="checkbox"/> If symptoms develop during 14 days, follow return to school guidance for scenario #5.

Other Considerations for Students and Staff

Key Questions

- What is the local policy/procedure regarding face coverings for staff? What is the policy/procedure for students?
 - Decisions regarding the continuous wearing of face coverings will be based on the rate of local community transmissions and recommendations from the CDC, Pennsylvania Department of Health, Allegheny Department of Health and PDE. Based on the current rate of community transmission, face coverings will be required at all times when inside. “Mask breaks” may be taken outside only with social distancing.
 - Teach and reinforce the use of face coverings.
 - At this time face coverings are required for all students, staff, visitors. Face coverings means covering of the mouth and nose. It can be made of a variety of synthetic or natural fabrics, including cotton, silk, linen, and can include a plastic shield that covers the nose or mouth. Face covering may be factory made, sewn by hand or improvised from household items, including, but not limited to, scarves, and bandanas. They need to be apolitical and appropriate for Catholic schools.
 - Cloth face coverings should not be placed on: (CDC)
 - Children younger than 2 years old
 - Anyone who has trouble breathing or is unconscious
 - Anyone who is incapacitated or otherwise unable to remove the cloth face covering without assistance
 - A medical excuse will be required for any student or person not able to wear a face covering/mask.
 - Cloth face coverings are meant to protect other people in case the wearer is unknowingly infected but does not have symptoms. Cloth face coverings are not surgical masks, respirators, or other medical personal protective equipment.
- What special protocols will you implement to protect students and staff at higher risk for severe illness?
 - Establish a standard routine of checking the health status of all those who enter the school including students, faculty, staff, family members and volunteers including temperature check and questionnaires.
 - School personnel need to be directed and educated about putting on PPE, especially if assisting a student or colleague that develops symptoms concerning COVID-19.
 - Have PPE resources available and ensure staff knows where they are located.
 - Re-evaluate school “calling in sick” procedure. Establish protocol for a report on student symptoms, length of illness etc.
 - Strengthen a “return to school” protocol including benchmarks that would allow a student or staff member to return to school.
 - Schools in the Diocese of Pittsburgh are following the Federation of Diocesan Pittsburgh Schools Agreement and/or the Handbook of Personnel Policies and Practices for Elementary Schools. Any student who cannot wear a mask or face shield due to a medical condition, including those with respiratory issues that impede breathing, a mental health condition, or disability and students who would be unable to remove a mask without assistance are not required to wear face coverings.
 - Individuals who are communicating or seeking to communicate with someone who is hearing impaired or who has another disability, where the ability to see the mouth is essential to communication, are not required to wear a mask; however, individuals should consider using another type of face covering such as a plastic face shield.

- How will you ensure enough substitute teachers are prepared in the event of staff illness?
 - Put out a Parent/Community Interest Survey
 - Local Intermediate Units offer emergency certification for those with a Bachelor's Degree and all required clearances.

- How will the LEA strategically deploy instructional and non-instructional staff to ensure all students have access to quality learning opportunities, as well as support for social emotional wellness at school and at home?
 - If not already done, survey school population to determine equity in devices and internet access.
 - Choose a consistent school wide communication platform and consistent apps for delivery learning and support.
 - Create a solid partnership with guidance counselors, social workers etc through your local IU.
 - Develop an onboarding plan for all students to orient them to any new procedures in school before the school year begins.
 - Create new ways to orient students and families who are new to the school.
 - Focus on making the school environment safe and secure while still warm and welcoming.
 - In collaboration with guidance counselor, create activities/help opportunities with check-ins to create a plan for identifying students with needs (social, emotional, and/or mental).
 - Create ways to mitigate stress responses in students, teachers, and families.
 - Create a communication platform with parents (coffee/tea with principal, roundtables, etc.), keeping the line of communication open.

Summary of Responses to Key Questions: Schools will establish a standard routine of checking the health status of all who enter the school and provide PPE resources if needed. CDC and State and Local Department of Health guidelines will be followed for face coverings.. Accommodations for safety protocols will be made for both staff and students as needed. Other changes that may be necessitated for the health and safety of the staff will follow appropriate protocols.

Requirements	Action Steps under Yellow Phase	Action Steps under Green Phase	Lead Individual and Position	Materials, Resources, and or Supports Needed	PD Required (Y/N)
* Protecting students and staff at higher risk for severe illness	Schools may provide in-person instruction after developing a written Health and Safety Plan, to be approved by the local governing body (e.g. board of directors/trustees) and posted on the school entity's publicly available website.	1. Establish a standard routine of checking the health status of all who enter the school. Ask staff and students and parents to identify themselves as higher risk. 2. Have PPE resources available to all who enter the school and ensure all staff knows where they are located.	Principal Teachers	no contact thermometer masks gloves (if necessary)	N

Social and Emotional Health	Students and staff will be provided frequent check-ins regarding overall mental health and opportunities for awareness and education.	Same as yellow	Principal Teachers School Counselors		

Health and Safety Plan Professional Development

The success of your plan for a healthy and safe reopening requires all stakeholders to be prepared with the necessary knowledge and skills to implement the plan as intended. For each item that requires professional development, document the following components of your professional learning plan. **Topic:** List the content on which the professional development will focus.

- **Audience:** List the stakeholder group(s) who will participate in the professional learning activity.
- **Lead Person and Position:** List the person or organization that will provide the professional learning.
- **Session Format:** List the strategy/format that will be utilized to facilitate participant learning.
- **Materials, Resources, and or Supports Needed:** List any materials, resources, or support required to implement the requirement.
- **Start Date:** Enter the date on which the first professional learning activity for the topic will be offered.
- **Completion Date:** Enter the date on which the last professional learning activity for the topic will be offered.

Topic	Audience	Lead Person and Position	Session Format	Materials, Resources, and or Supports Needed	Start Date	Completion Date

Health and Safety Plan Communications

Timely and effective family and caregiver communication about health and safety protocols and schedules will be critical. Schools should be particularly mindful that frequent communications are accessible in non-English languages and to all caregivers (this is particularly important for children residing with grandparents or other kin or foster caregivers). Additionally, LEAs should establish and maintain ongoing communication with local and state authorities to determine current mitigation levels in your community.

Health and Safety Plan Summary: Madonna Catholic Regional School

Anticipated Launch Date: August 1, 2020

Facilities Cleaning, Sanitizing, Disinfecting and Ventilation

Requirement(s)	Strategies, Policies and Procedures
<p>* Cleaning, sanitizing, disinfecting, and ventilating learning spaces, surfaces, and any other areas used by students (i.e., restrooms, drinking fountains, hallways, and transportation)</p>	<p>Each school building will be thoroughly cleaned and sanitized during the summer months, and the classrooms will be closed off to others until ready for use. Cleaning and sanitizing materials must be purchased and meet all of the EPA guidelines and must be kept in a secure location away from students. Frequent cleaning and sanitizing will occur throughout the school day, especially any highly touched surfaces, such as doorknobs, light switches, desks, etc. All staff members will be instructed on the proper cleaning methods to be used to keep the building clean and sanitized. Cleaning and sanitizing materials will be provided for each classroom and will be replaced as needed. Hand sanitizing pumps will be placed in the hallways so as to be readily available to everyone.</p>

Social Distancing and Other Safety Protocols

Requirement(s)	Strategies, Policies and Procedures
<ul style="list-style-type: none">* Classroom/learning space occupancy that allows for 6 feet of separation among students and staff throughout the day, to the maximum extent feasible* Restricting the use of cafeterias and other congregate settings, and serving meals in alternate settings such as classrooms* Hygiene practices for students and staff including the manner and frequency of hand-washing and other best practices* Posting signs, in highly visible locations, that promote everyday protective measures, and how to stop the spread of germs* Handling sporting activities consistent with the CDC Considerations for Youth Sports for recess and physical education classes	<p>Each building will be required to have Social Distancing and Safety protocols in place during the school year. Administration will develop a plan based on CDC Guidelines that will require limiting volunteers within the building, changing schedules to limit the amount of places traveled and using a variety of ways to display proper hygiene and social distancing requirements.</p>
<p>Limiting the sharing of materials among students</p>	
<p>Staggering the use of communal spaces and hallways</p>	
<p>Adjusting transportation schedules and practices to create social distance between students</p>	
<p>Limiting the number of individuals in classrooms and other learning spaces, and interactions between groups of students</p>	
<p>Coordinating with local childcare regarding on site care, transportation protocol changes and, when possible, revised hours of operation or modified school-year calendars</p>	
<p>Other social distancing and safety practices</p>	

Monitoring Student and Staff Health

Requirement(s)	Strategies, Policies and Procedures
<p>* Monitoring students and staff for symptoms and history of exposure</p> <p>* Isolating or quarantining students, staff, or visitors if they become sick or demonstrate a history of exposure</p> <p>* Returning isolated or quarantined staff, students, or visitors to school</p> <p>Notifying staff, families, and the public of school closures and within-school- year changes in safety protocols</p>	<p>All Family members will be provided with information on how to Check for Signs and Symptoms of COVID-19. Through regular communications staff and families will know that they (staff) or their children (families) should not come to school if they are ill or exhibiting any signs of COVID-19, and that they should notify school officials. Everyone entering the school building will be monitored. Temperature scans and a general health survey will be completed and anyone experiencing any signs of illness or shortness of breath/difficulty breathing will be isolated and sent home. All Faculty and staff members will be trained on how to Check for Signs and Symptoms of COVID-19 and what the proper procedure is once someone has been identified. Anyone who has tested positive for COVID-19 must provide two documented negative test results to the school prior to returning to school. If the student does not wish to return because they are unable or uncomfortable to return, they may continue to participate in the classroom instruction virtually.</p> <p>The families will be notified through the parent alert system on the same day that the school is alerted of a positive COVID-19 case. During that time, they will be notified if there are needed changes to current school operational protocol.</p>

Other Considerations for Students and Staff

Requirement(s)	Strategies, Policies and Procedures
<p>* Protecting students and staff at higher risk for severe illness</p> <p>* Use of face coverings (masks or face shields) by all staff</p> <p>* Use of face coverings (masks or face shields) by older students (as appropriate)</p> <p>Unique safety protocols for students with complex needs or other vulnerable individuals</p> <p>Strategic deployment of staff</p>	<p>Schools will establish a standard routine of checking the health status of all who enter the school and provide PPE resources if needed. CDC and State and Local Department of Health guidelines will be followed for face coverings. Accommodations for safety protocols will be made for both staff and students as needed. Other changes that may be necessitated for the health and safety of the staff will follow appropriate protocols.</p>

CDC Updates:

- If a school community member suspects or knows he/she had COVID-19, and had symptoms, he/she may return to school or attend a school/athletic activity or event after:
 - ten days since symptoms first appeared; and
 - at least 24 hours with no fever without fever-reducing medication; and
 - symptoms have improved.

- NOTE: if you are tested to see if you still have COVID-19, you may return to school when:
 - you have no fever; and
 - respiratory symptoms have improved; and
 - you receive two negative test results in a row, at least 24 hours apart.

- If a school community member tested positive for COVID-19 but had no symptoms, and continue to have no symptoms, that individual may return to school or attend a school/athletic activity or event after:
 - ten days have passed since test, or
 - after he/she receives two negative tests results in a row, at least 24 hours apart.

- NOTE: The individual's doctor should work with an infectious disease expert at the local health department to determine if he/she is likely to spread COVID-19 to others and need to stay home longer.

- I understand that anyone who has close contact with someone with COVID-19 may not return to school or attend a school/athletic activity or event until:
 - 14 days after exposure

- I understand that school community members who have a weakened immune system (immunocompromised) due to a health condition or medication may need to take additional precautions and/or stay home longer than the ten days in the event of infection. These individuals are encouraged to consult their healthcare provider and work with the school principal to effectuate any necessary reasonable accommodations.

WHAT TO DO IF A STUDENT IS SICK?

Student is exhibiting symptoms consistent with COVID-19.

Student is sick, but symptoms exhibited are not consistent with COVID-19.

Student follows protocols consistent with attendance policy.

- Nurse notifies Principal and Pandemic Safety Officer
- Principal notifies Superintendent

- Student is sent to nurse immediately
- Parents are notified to pick up student ASAP
- Student is isolated
- Parents are advised to seek medical attention
- Nurse must follow up with family every 24 hours until a diagnosis or test results are received

The Student IS DIAGNOSED/
CONFIRMED with COVID-19.

The Student IS NOT Diagnosed with
Covid-19

Student Must:

- Stay home, self-isolate
- Seek medical attention
- Remain home until:
- at least 10 days have passed since symptoms first appeared,
- AND remain symptom free for at least 3 days (72 hours) (defined as resolution of fever without the use of fever-reducing medications)
- AND other symptoms have improved.
- School may require clearance from a healthcare provider to return to school.

School Must:

- Follow established communications plan to notify staff, students and families.
- Notify Allegheny County Health Department
- Investigate, contact trace, and establish what other students and/or staff members were in close contact with sick person
- Clean and disinfect the area(s) where the student was present.
- Identify corrective actions, if any, that can be taken for the future.

Student Must:

- Stay home, self-isolate
- Seek medical attention
- Remain out of work until:
- at least 10 days have passed since symptoms first appeared,
- AND remain symptom free for at least 3 days (72 hours) (defined as resolution of fever without the use of fever-reducing medications)
- AND other symptoms have improved.

School Must:

- Follow established communications plan to notify staff, students and families.
- Clean and disinfect the area(s) where the student was present.
- Identify corrective actions, if any, that can be taken for the future.

WHAT TO DO IF STUDENT HAD CONTACT WITH A CONFIRMED COVID-19 CASE?

No Close Contact and the student is asymptomatic

No further action is needed.

Close Contact/Exposure

- Student is sent to nurse immediately
- Parents are notified to pick up student ASAP
- Student is isolated
- Nurse must follow up with family twice during quarantine period

If the student is quarantined for 14 days *and* remains symptom free, he/she may return to school after 14 days.

If the student develops symptoms, he/she should seek medical attention and isolate for an additional 10 days.

School Must:

- Follow established communications plan to notify staff, students and families.
- Notify Allegheny County Health Department
- Investigate, contact trace, and establish what other staff members and/or students were in close contact with sick person a
- Clean and disinfect the area(s) where the staff member was present.
- Identify corrective actions, if any, that can be taken for the future.

Student Must:

- Stay home, self-isolate
- Seek medical attention
- Remain out of school until:
 - at least 10 days have passed since symptoms first appeared,
 - AND remain symptom free for at least 3 days (72 hours) (defined as resolution of fever without the use of fever-reducing medications)
 - And other symptoms have improved.
- School may require clearance from a healthcare provider to return to school.

Health and Safety Plan Governing Body Affirmation Statement

The Board of Directors/Trustees for South Regional Catholic Elementary Schools reviewed and approved the Phased School Reopening Health and Safety Plan on **July 29, 2020**.

The plan was approved by a vote of:

Yes

No

Affirmed on: **July 29, 2020**

By:

(Signature of Board President)*

Reverend David G. Poecking

*Electronic signatures on this document are acceptable using one of the two methods detailed below.

Option A: The use of actual signatures is encouraged whenever possible. This method requires that the document be printed, signed, scanned, and then submitted.

Option B: If printing and scanning are not possible, add an electronic signature using the resident Microsoft Office product signature option, which is free to everyone, no installation or purchase needed.
